## **ASAP announces record shortlist for 2016 Serviced Apartment Industry Awards, exclusively supported by Sky**

ASAP is delighted to announce that a record number of 61 entries from serviced apartment operator, agents and suppliers have been shortlisted for its **2016 Serviced Apartment Industry Awards**, exclusively supported by Sky.

Speaking at the Association's meeting on 8 September, after announcing the shortlist, James Foice, ASAP CEO comments:

*'I'm absolutely thrilled that our 2016 Serviced Apartment Industry Awards have been so extremely well supported by such a wide cross section of our members. The expansion of our Awards programme to 10 categories this year, and the record numbers shortlisted, reflects the importance of our vibrant and dynamic serviced apartment sector and the growing ambitions of our members to achieve an important ASAP accolade for key innovations they've introduced to their businesses in the last 12 months.'*

An independent panel of industry experts will now judge the awards and the winners will be announced at the special ASAP 2016 Gala Dinner & Industry Awards evening at the Museum of London on 30 November. This black-tie event, on the eve of the 2016 ASAP Annual Convention, will bring together ASAP members, the wider industry, agents and suppliers to celebrate and recognise the sector's achievements over the past 12 months.

To see the full list of all the companies who have been successfully shortlisted, please refer to the pdf document.
