

Common Sense Compliance

Common Sense Compliance, sponsors of ASAP are delighted to provide guidance to members on how to keep their business compliant with Health and Safety Regulation and Law.

This will include:

- “Free telephone advice line exclusive to ASAP members”
- “Free Seminars throughout the Year on New Regulations”
- “Guidance on Safety Managements Systems”
- “Top Ten points Regulatory Points to Consider”

Free Advice Line Exclusive To Members

Access to Advice from your appointed contact for up **10** calls per year.

Free with no further obligation access to Health and Safety Professionals on the advice line on any issue relating to your business compliance in fire and Health and Safety.

Reduced consultancy rates therefore after if visits or audits are then requested from your company.

Piece of mind from industry experts.

Please register your designated person by contacting:

lee.matthews@cs-compliance.co.uk

Grand Connaught Rooms London

To book your place on this seminar or to find out details of future seminars
please email: mark.reed@cs-compliance.co.uk

Health and Safety Plan

Every organisation with over 5 employees should have a documented plan of how they will take care of Health & Safety, below is a diagram which sets an easy template to follow:

Top Ten Points to Consider

One of the main drivers within ASAP is to raise standards within the industry and become the bench mark of quality for a good apartment provider.

ASAP members should consider the following as essential points to consider:

1) Fire Arrangements –

A Fire Risk Assessment should be carried out to ascertain:

- What the chances are of a fire starting in your workplace;
- Whether a fire in your workplace would put people in danger;
- Whether your existing fire precautions are suitable; or
- Whether more precautions are needed.

Top Ten Points to Consider

ASAP members should also consider the following areas in a similar way to Fire:

- 2) Electrical safety
- 3) Gas safety
- 4) Risk Assessment
- 5) Window and balcony safety
- 6) Contractor control
- 7) Stair and floor safety
- 8) Building security and access
- 9) Safety Training
- 10) Pest control
